

Nhat Tien Nguyen

◆◆◆◆ Web Developer

ABOUT ME

DOB: 21 - 07 - 1998

Hi. I am a web developer with a self-learn mindset. I was a student of Humber College majoring in Business Administration. Due to COVID-19 pandemic, I went back to Vietnam and started to learn IT until now. Previously, I worked as an intern at OMEGA.ERP Company.

SKILLS

Programming Languages

JavaScript, Java, C#

I'm quite confident that can catch up with other languages when needed very fast.

Web Front-end Technologies

HTML5, CSS3, JQuery

I'm currently learning React Native and Sass.

Back-end Technologies

Database: MySQL

Cloud Service: Vercel, Somee

Industrial & Interpersonal Skills

Devtools: Git, Github, Sourcetree, VS Code, Notion, NetBeans, Visual Studio

UI Design: Photoshop, Draw.io, AI

Go Vap District, Ho Chi Minh City, Vietnam.

EXPERIENCE

Software Developer at OMEGA.ERP Company

April 2021 - June 2021

I worked as an intern at OMEGA.ERP Company for 2 months as a software developer. I helped company in making report for WinForm's form with Crystal Report and updating UI of the application with Devexpress's Control.

That being said, I have learnt a lot about what to do with Devexpress's tools to make the UI Design more user-friendly.

SIDE PROJECTS

Electronic Shop Website

Similar to the Highwind Computer Shop Website above. I am building a new website with full features such as placing order, register a new membership, admin dashboard to manage staffs, products, types and orders from customers. For this project, I use HTML, CSS, Javascript to build the UI front-end, ASP.NET MVC for back-end and MySQL Server as a database.

This project is still in progress.

EDUCATION

Humber College - Business Administration

August 2017 - November 2019

GPA: 7.2/10

Aptech Saigon - Software Engineering

December 2019 - July 2021

GPA: Updating...

LANGUAGES

English: Working proficiency and being able to read Documents efficiently.

Vietnamese: Native Speaker.
